## SteamAroma Nano – Voltage Selection

### Automatic Steam Room Aroma Pump

<b>110/115 Volt</b> _____	<b>220/240 Volt</b> _____
<p><i>Please select above the appropriate voltage. This refers to your steam room solenoid valve (not the steam generator). # of units</i> _____</p>	
<b>Signature</b> _____	<b>Name</b> _____
<b>Organization</b> _____	<b>Date</b> __/__/__

Yes, I wish to purchase the above SteamAroma Nano Unit for **\$245. After coupons \$95.**

(10 coupons of \$15 each=\$150, redeemable with each separate aroma purchase of 4 or 5 gallons or more of Spa Partners aroma, starting with the 2<sup>nd</sup> aroma purchase – Please inform us each time you wish to use a coupon with aroma purchase).

Add \$15 for the 220/240 Volt version. Commercial steam rooms only.

**Please note that the Nano aroma dispenser is normally wired into the solenoid that opens the steam valve, not into a standard wall outlet.** Units returned due to an incorrect voltage specification will require a 20% re-testing/re-packing charge. Please ensure that a qualified electrician installs the Nano Unit. **Please let us know if your steam room holds over 15 people, we can handle this at no extra charge.**

**Please fax or email the voltage specification to 1-973-386-9055 or central@spapartners.com. Thank you for your business!**
